Botrosecco 2021

Classification
DOC Maremma Toscana

Vintage
2021

Climate
The 2021 growing season was defined by mild winter weather with average rainfall that provided generous groundwater reserves in the vineyards, vital for the beginning of the growth cycle. Spring started out cold causing a slight delay in bud break and bloom. The summer months were hot and dry, optimal for ensuring a perfect ripening phase with whole, healthy fruit. The grape harvest began the third week of September with Cabernet Franc that gave the wine an elegant tannic structure. One-week later, Cabernet Sauvignon was harvested with berries that presented fragrant notes of ripe red fruit.

Vinification

Grapes were meticulously selected during harvesting operations, brought to the cellar for destemming and then delicately crushed. The must was transferred to stainless steel tanks where alcoholic fermentation took place at a temperature of 25 °C (77 °F) to enhance the characteristic aromatic profile of each grape variety and to preserve the clean, pure qualities of the fruit. During maceration on the skins, which took place over a period approximately 15 days, fermenting must was pumped over the cap to extract only the finest most desirable tannins. The wine was then transferred into stainless steel tanks where malolactic fermentation took place and was completed by the end of the year. Botrosecco was aged in barriques for 9 months before aging in the bottle.

Historical Data

The Fattoria Le Mortelle estate is located in the heart of the Tuscan Maremma just a few kilometers away from the town of Castiglione Pescaia in an extraordinary and fascinating position both in terms of its natural setting and the history of the area which surrounds it. The Antinori family has always been present in the zone. A property act of 1863 mentions, among other possessions, Poggio Franco, one of the highest quality vineyard plots of the estate, along with other landed parcels. Since 1999, the family has worked both on the vineyards and on new cellars, convinced that this part of Tuscany, already gaining much visibility in the overall Italian viticultural picture, had a very important potential for quality wine. And that here it was possible to express, at a high level, both the characteristics of the terroir and the grape varieties to be cultivated. The estate extends over some 675 acres (270 hectares), 432 of which (175 hectares) are planted to vines Cabernet Sauvignon and Cabernet Franc, along with the more recently planted white varieties (Vermentino, Ansonica, and Viognier) and a small percentage of Carménère. The soil, of medium consistence, sandy and loamy, has a composition principally of clay and silica and, in certain zones, is rather stony as well.

Tasting Notes

Botrosecco 2021 is ruby red in color. On the nose dominant notes of small, ripe red fruit, red currants, and sour cherries are perfectly balanced with delicate hints of white pepper, tobacco, and Mediterranean herbs. The palate is pleasing and persistent with mouth filling tannins. The finish reveals intense flavors of fresh fruit and cocoa.
