Vinification

Grapes were harvested exclusively by hand. Whole Chardonnay clusters were brought to the cellar, gently pressed and the free-run juice from the first pressing was transferred into temperature controlled stainless steel vats where primary alcoholic fermentation took place. The following spring, the wine began secondary fermentation in the bottle with a lengthy period of aging on the lees.

Tasting Notes

Donna Cora is straw yellow in color. Its creamy mousse and delicate, persistent perlage define the finest qualities of Franciacorta Satèn. On the nose, it offers elegant notes of white flowers and pleasant sensations of white pulp fruit. An intriguing palate, harmonious and easy to drink, accompany excellent structure and complexity.
